1 Overview

DIGITAL MARKETING

What Is Digital Marketing?

Digital Marketing is how brands connect with people across the digital world search engines, social media, websites, videos, and ads.

“It’s not about being everywhere. It’s about being visible at the right moment.”

Today, buying decisions begin online long before a customer clicks “Buy”.

Don’t these brand names **feel familiar** to you?
You see them while searching, scrolling, watching, and shopping online.

Myntra · blinkit · Flipkart · zomato
SWIGGY · amazon · Bata · bigbasket
boAt · meesho · lenskart · zepto

That’s not coincidence.
That’s **strategic Digital Marketing** in **action**.

2

Digital Marketing is no longer an option. It’s the foundation of modern business growth

Visibility creates opportunity. Strategy creates success.

01

What Digital Marketing Really Does?

Digital marketing connects:

- A problem with a solution
- A brand with the right audience
- Data with actionable decisions

It’s not about noise. It’s about relevance.

02

Why Businesses Depend on Digital Marketing

Modern businesses use digital marketing to:

- Understand customer behavior
- Reach people across multiple platforms
- Measure what’s working (and what’s not)
- Scale growth without scaling cost

Every click, view, and interaction becomes insight.

03

Digital Marketing Turns Attention Into Growth

When done right, digital marketing:

- Builds trust before selling
- Creates demand instead of chasing it
- Converts interest into long-term loyalty

Growth becomes predictable, not accidental.

04

Why Learning Digital Marketing Matters Today

The market doesn’t need more tools.

It needs skilled thinkers who know:

- How users behave online
- How platforms really work
- How data guides smarter decisions

That’s the skill IDS focuses on building.

Marketing today is digital. Growth depends on how well you master it.

3

The AI Shift in **DIGITAL MARKETING**

Then

Traditional Digital Marketing

- Manual campaign planning
- Repetitive execution across platforms
- Static content and fixed strategies
- Decisions based on limited historical data
- Slower optimization cycles
- Scaling required larger teams and higher effort

Marketing delivered results but growth depended heavily on time and manpower.

Now in **AI Era**

AI-Enhanced Digital Marketing

- Data-driven and intelligent planning
- Automated workflows and execution
- Dynamic, adaptive content strategies
- Real-time insights and predictive decisions
- Continuous optimization
- Scalable systems with minimal manual effort

Marketing becomes smarter, faster, and more efficient.

Digital marketing now runs on intelligence, systems, and speed.

The real question is

ARE YOU READY TO UPGRADE YOURSELF TO "THE FUTURE OF DIGITAL MARKETING WITH AI & AUTOMATION"?

4

Enhanced Curriculum With **AI & AUTOMATION**

How We Teach Marketing in the AI Era?

At **Institute of Digital Studies**, our program is designed around how modern marketing actually works today.

“Rather than teaching isolated tools or manual execution, we train learners to design intelligent marketing systems powered by AI and automation.”

Our focus is not on doing more tasks but on building smarter, scalable workflows that reflect real-world practices.

7 Key Features of the curriculum

AI-Integrated Marketing Foundations

Learn core digital marketing concepts through an AI-first lens understanding where and how AI enhances strategy, planning, and execution.

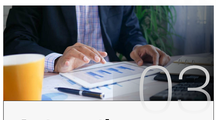
Foundations are not replaced. They are upgraded.

Data-Driven Decision Making

Understand how AI interprets data to:

- Identify patterns
- Predict outcomes
- Improve campaign performance

Move beyond guesswork to informed marketing decisions.



Automation-Driven Workflows

Build automated systems for:

- Lead capture and follow-ups
- Campaign execution
- Cross-platform coordination

Marketing shifts from manual effort to system-led execution.

Intelligent Content, SEO & Creative Systems

Learn how AI supports:

- Content ideation and optimisation
- Search behaviour understanding
- Performance-driven content planning

Along with advanced SEO frameworks such as Off-Page **SEO, AEO, GEO, and AIO** expanding visibility beyond traditional rankings.

AI also enhances creative execution through faster support in website layouts, brand assets, and presentation workflows. Content becomes strategic, consistent, and scalable.

Performance Marketing with AI Optimization

Explore how AI enhances:

- Ad targeting and segmentation
- Budget allocation
- Creative performance analysis

Campaigns evolve continuously not just after manual reviews.

AI Agents & Smart Marketing Systems

Understand how AI agents support:

- Task delegation
- Real-time responses
- Workflow management

Marketing systems begin to operate intelligently in the background.

Real-World Application & System Thinking

Apply AI and automation concepts through:

- Practical use cases
- Workflow-based projects
- End-to-end marketing systems

Learning focuses on how everything connects, not isolated tasks.

The Learning Outcome

By the end of the program, learners don’t just execute campaigns. They **design, manage, and optimise AI-enhanced marketing systems**.

“This Is How **Future-Ready Marketers** Are Shaped -Through Intelligence, Systems, And Strategic Thinking”.

5

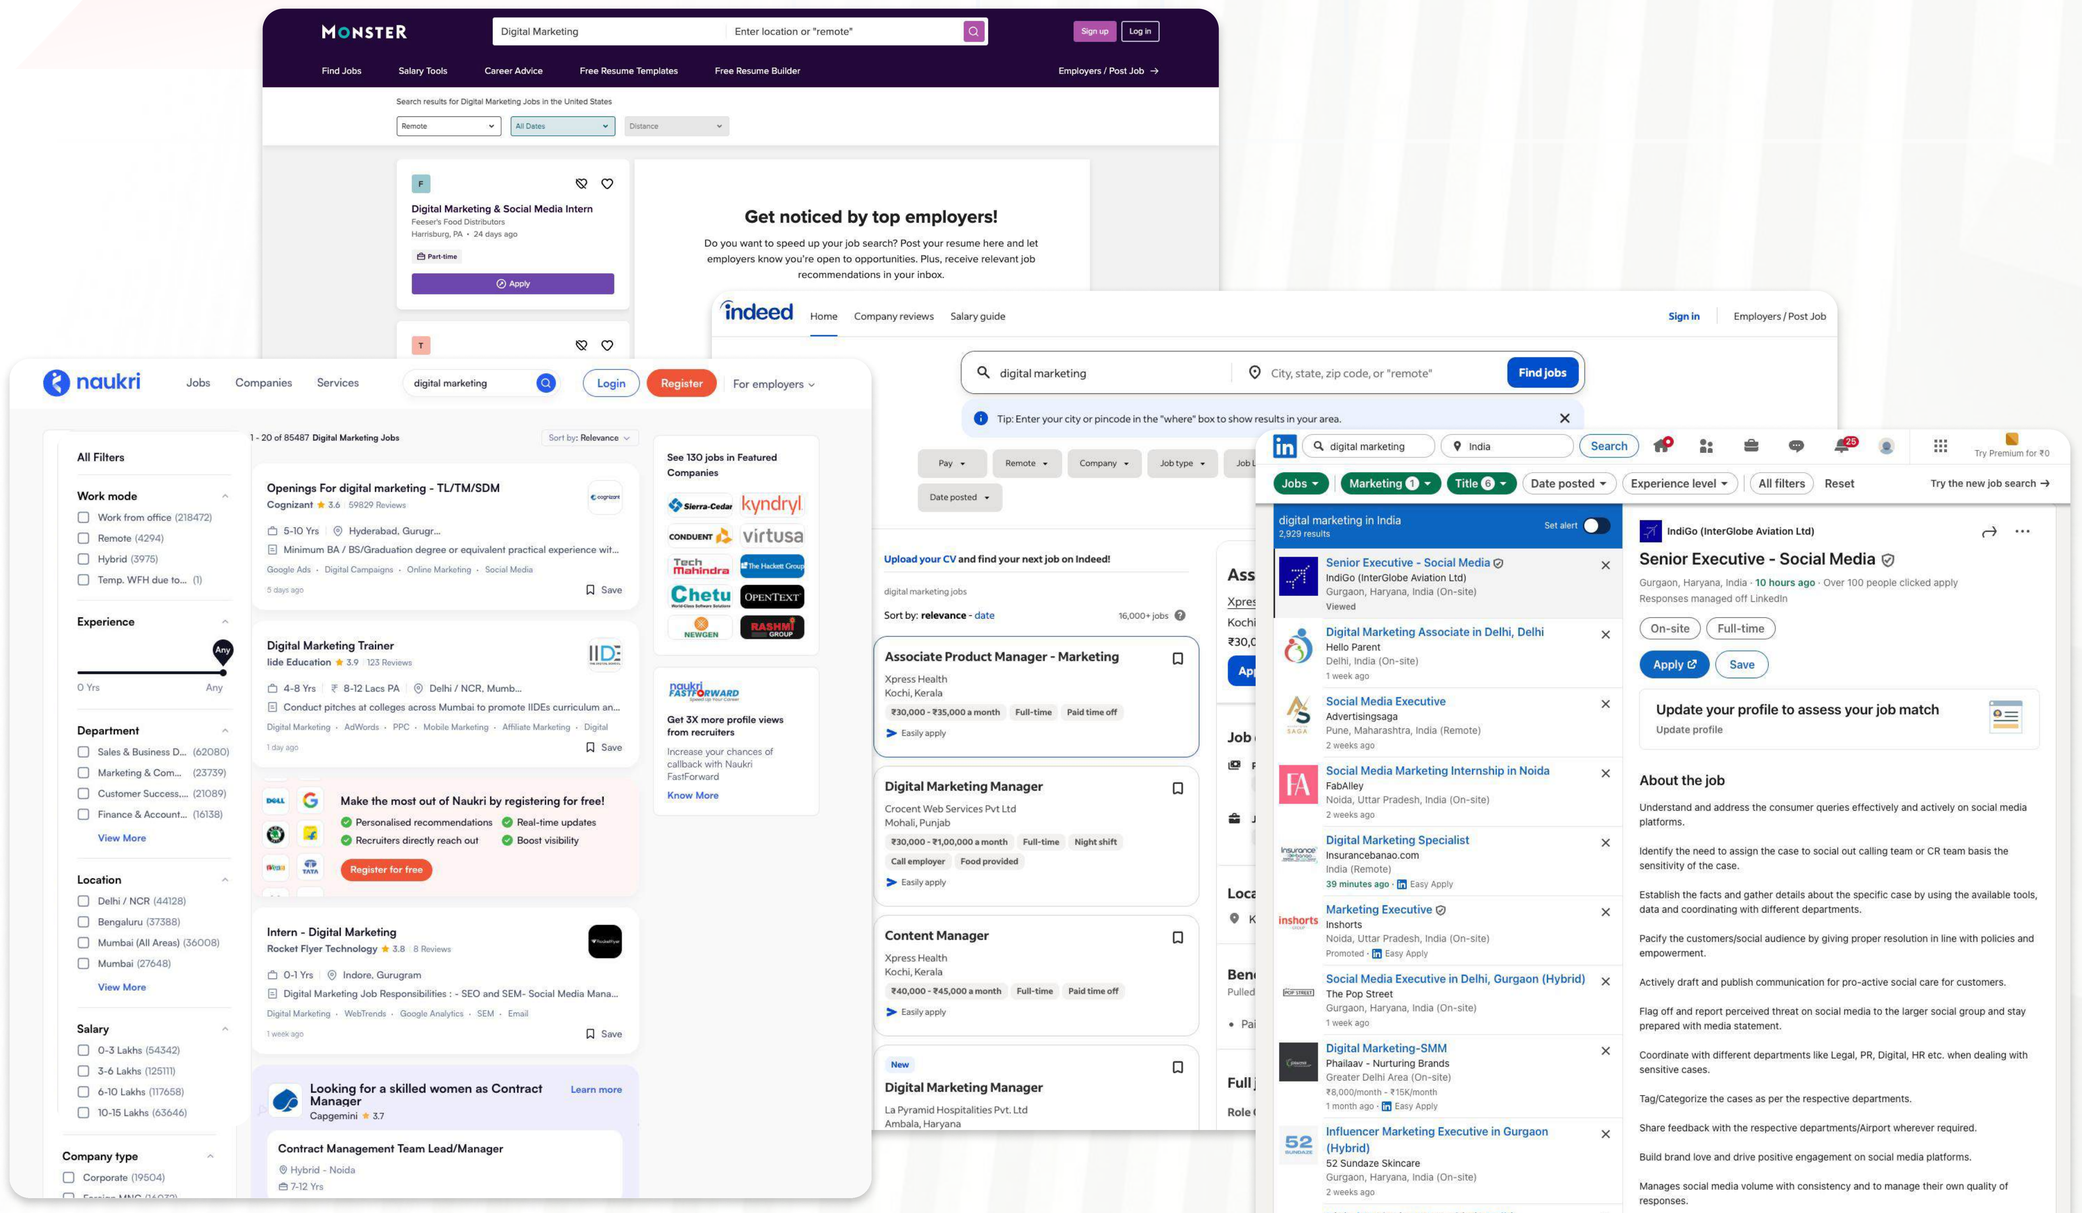
Digital Marketing
INDUSTRY SCALE & CAREER SCOPE

The Indian Digital Marketing market was valued at approximately **USD 5.12 billion** in 2023 and is projected to grow at a CAGR of around 30.3% between 2024 and 2032, reaching an estimated **USD 55.37 billion** by 2032. This rapid expansion is driving strong global demand for digital marketing professionals, with hiring trends showing consistent growth across multiple roles and experience levels.

Across major job portals like

LinkedIn · naukri · indeed

Currently, over **3,80,000+** job openings are actively listed across platforms, highlighting strong and consistent hiring demand.



6

Why Choose IDS?

At Institute of Digital Studies, we don’t teach marketing as isolated skills or short-term tactics. Our approach is designed around how digital marketing is actually practiced today combining strategy, systems, and real-world execution.

Designed for Modern Marketing

Our programs are structured around how digital marketing is practiced today, focusing on systems, strategy, and real-world execution rather than isolated tools.

Industry-Aligned Curriculum

The curriculum evolves with changing platforms, technologies, and market demands, ensuring learners stay relevant beyond completion.

AI & Automation First Learning

AI and automation are integrated into the core learning journey, enabling learners to work with intelligent workflows that reflect modern marketing operations.

Practical, System-Based Approach

Concepts are taught through real-world scenarios and connected workflows, helping learners understand how strategies translate into measurable outcomes.

Built for Diverse Career Paths

The program supports freshers, professionals, freelancers, and business owners by developing adaptable skills applicable across industries and roles.

Guided & Structured Learning Journey

Learners progress through a clear, well-defined learning path designed to build confidence, clarity, and long-term capability.

Focus on Long-Term Skill Relevance

The emphasis remains on developing skills that evolve with the industry, rather than short-term tactics or temporary trends.

7

Our Learners Are **Building Careers** With Leading Brands

These outcomes reflect the practical, industry-aligned approach followed throughout the learning journey.

Average Compensation Outcome

₹8.9 LPA*

This figure represents an average of outcomes achieved by learners across roles, experience levels, and industries.

*Individual results may vary based on prior background, performance, role, and market conditions.

Real Journeys.
REAL PROGRESS.

Real progress comes from structured learning, practical skills, and the commitment to apply them consistently.

- Lawyers
- Job Switchers
- Charted Accountant
- Upgrade skills

Businessmen
- Retailers
- Manufacturer (B2B, B2C)
- HO RE CA
- Gym, Bakery, Salon Owner
- Entrepreneur

Network Marketers
- Independents Distributors
- Direct Selling
- MLM
- LIC Agents
- Business Coach

Self Employed
- Freelancer
- Service Provider
- Side Hustler
- Part Timers
- Consultant
- Solopreneur

Students
- Representative
- Learner & Explorer
- Post Graduate
- Under Graduate
- Competitive Exam Aspirants
- Researcher

Homemakers
- Married
- Single Mother
- Unmarried

Our AI-Infused "PROGRAM ROADMAP"

01 Milestones

Week 0

Orientation & Program Onboarding

Begin with a guided onboarding session to understand the program structure, learning approach, tools, and expectations for the 20-week journey ahead.

02 Milestones

Week 1-3

Digital Marketing Foundations & Website Planning

Build a strong foundation in digital marketing principles, branding essentials, and website planning. Understand how websites support digital campaigns and strengthen brand presence in real-world scenarios.

9-10 Live Classes | 3 Projects | 3 Case Studies | 3-4 Quizzes

Module 01

Digital Marketing Foundations

- Introduction to modern digital marketing
- Marketing goals & funnel understanding
- Customer journey and touch points
- Brand positioning in digital spaces
- Digital channels overview
- Campaign planning basics

Project
Brand presence analysis (basic audit)

Case Study
D2C brand digital growth overview

Module 02

Market Research & Strategy Building

- Market and audience understanding
- Buyer persona creation
- Customer pain-point mapping
- Value proposition design
- Competitive research methods
- Translating insights into strategy

Project
Buyer persona & market research report

Case Study
OTT / E-commerce platform strategy analysis

Module 03

Website Planning & Creation

- Website role in digital marketing
- CMS fundamentals (WordPress overview)
- Website structure & navigation planning
- Content hierarchy & UX basics
- Website optimization fundamentals
- Essential plugins & tools

Project
Create and structure a functional website

Case Study
Service-based business website breakdown

03 Milestones

Week 4-8

Search Optimization & Content Strategy

Learn how users search, consume content, and make decisions online. Develop skills in SEO fundamentals, content planning, and visibility-driven strategies for sustainable organic growth.

15-17 Live Classes | 6 Projects | 6 Case Studies | 5-7 Quizzes

Module 04

Search Engine Optimisation (SEO) – Foundations

- Understanding how search engines work
- Role of SEO in modern digital marketing
- Search intent & user behaviour
- Keyword research fundamentals
- AI-assisted keyword discovery
- Search visibility & ranking factors
- Basics of search experience optimisation

Project
Keyword research & intent mapping

Case Study
E-commerce search growth analysis

Module 05

On-Page SEO & Content Optimisation

- On-page SEO principles
- Page structure & content hierarchy
- Meta titles, descriptions & AI support
- URL structure & internal linking
- Content optimisation best practices
- Search readability & UX signals
- Common on-page SEO mistakes

Project
On-page optimisation checklist

Case Study
Content-led SEO improvement study

Module 06

Technical SEO & Website Health

- Website crawlability & indexing basics
- Site speed & performance optimisation
- Mobile-first & responsive design factors
- Core web performance signals
- Structured data & schema basics
- Search console setup & monitoring
- Identifying and fixing technical issues

Project
Technical SEO audit report

Case Study
Website performance optimisation review

Module 07

Web Analytics & Performance Monitoring

- Introduction to web analytics
- Understanding user behaviour data
- Tracking website & campaign performance
- SEO and traffic reporting basics
- Measuring engagement & conversions
- Data-driven optimisation approach
- Interpreting insights for decisions

Project
Analytics setup & reporting dashboard

Case Study
Brand performance tracking analysis

Module 08

Content Marketing & Funnel Strategy

- Role of content in digital marketing
- Content types across the funnel
- SEO-led content planning
- User intent & content alignment
- Copywriting fundamentals
- AI-assisted content strategy
- Content optimisation for performance

Project
Content strategy & audit plan

Case Study
Content-driven growth breakdown

04 Milestones

Week 9-11

Social Media & Influencer Strategy

Understand how brands build presence and engagement across social platforms. Learn content planning, audience engagement techniques, and influencer collaboration strategies to expand reach and credibility.

9-10 Live Classes | 3 Projects | 3 Case Studies | 3-4 Quizzes

Module 09

Social Media Marketing – Foundations

- Role of social media in digital marketing
- Platform overview & use cases
- Organic growth strategies
- Audience research & persona mapping
- Content planning for social platforms
- Brand voice & community building
- Introduction to social media analytics

Project
Social media content plan & calendar

Case Study
Consumer brand social growth analysis

Module 10

Social Media Strategy & Platform Marketing

- Building platform-specific strategies
- LinkedIn marketing for professionals & brands
- Instagram & visual content strategy
- Short-form content & engagement tactics
- Twitter (X) & real-time marketing basics
- Performance tracking & key metrics
- Social media management tools & reporting

Project
Platform-wise social strategy document

Case Study
Lead generation & reach optimisation study

Module 11

Influencer Marketing & Creator Collaborations

- Introduction to influencer marketing ecosystem
- Identifying the right creators for brands
- Influencer outreach & collaboration models
- Campaign planning & execution
- Paid promotions, gifting & partnerships
- Measuring influencer campaign performance
- Brand advocacy & long-term collaborations

Project
Influencer campaign planning framework

Case Study
Influencer-led brand awareness campaign

05 Milestones

Week 12-18

Performance Marketing & Growth Campaigns

Focus on result-oriented marketing across paid channels.
Learn campaign structuring, audience targeting, budget optimisation, and performance analysis to drive measurable outcomes.

21-23 Live Classes | 9 Projects | 6 Case Studies | 7-9 Quizzes

Module 12

Introduction to Paid Advertising (Meta Ads)

- Role of paid advertising in growth marketing
- Understanding paid media ecosystems
- Platform selection for different business goals
- Audience targeting fundamentals
- Ad formats and creative essentials
- Budget planning and bidding basics
- Introduction to AI-assisted targeting

Project
Audience targeting & ad objective planning

Case Study
Consumer brand paid growth overview

Module 13

Paid Campaign Structure & Optimisation

- Campaign, ad set, and ad hierarchy
- Building scalable campaign structures
- Creative testing and optimisation logic
- Conversion-focused ad strategies
- Lead generation workflows
- Campaign performance monitoring
- Iterative optimisation using insights

Project
Create and structure a paid campaign

Case Study
Brand campaign optimisation analysis

Module 14

Conversion Tracking & Audience Strategy

- Importance of conversion tracking
- Tracking setup fundamentals
- Custom event and goal configuration
- Audience segmentation and usage
- Lookalike and custom audience logic
- Data accuracy and troubleshooting basics

Project
Conversion tracking & audience setup

Case Study
E-commerce conversion optimisation study

Module 15

Campaign Reporting & Performance Analysis

- Understanding campaign performance metrics
- Reading and analysing ad reports
- Attribution concepts and performance signals
- Optimisation based on insights
- Reporting structure and dashboards
- Communicating results effectively

Project
Campaign performance report

Case Study
Brand performance analysis review

Module 16

Search Advertising & Keyword Strategy

- Introduction to search-based advertising
- Keyword research and intent mapping
- Match types and bidding logic
- Writing high-intent ad copies
- Search campaign structuring
- Ad extensions and quality signals
- AI-assisted keyword and copy optimisation

Project
Search campaign keyword strategy

Case Study
Search visibility improvement analysis

Module 17

Display, Video & YouTube Advertising

- Role of display and video advertising
- Audience targeting for visual campaigns
- Video ad formats and storytelling basics
- Creative sequencing and messaging
- Performance tracking for video ads
- Optimisation for reach and conversions

Project
Video ad structure & messaging plan

Case Study
Brand video campaign breakdown

Module 17

Advanced Conversion & Remarketing Systems

- Remarketing fundamentals and use cases
- Audience list creation and segmentation
- Funnel-based remarketing strategies
- Performance-focused campaign types
- Conversion optimisation using data
- AI-supported performance enhancement

Project
Remarketing funnel setup

Case Study
Conversion recovery & scaling study

06 Milestones

Week 19-20

Marketing Automation & AI-Driven Systems

Learn to design automated marketing workflows using AI and automation tools. Build intelligent systems that reduce manual effort, connect platforms, and enable scalable, data-driven marketing operations.

6-8 Live Classes | 3 Projects | 3 Case Studies | 5-6 Quizzes

Module 19

Email Marketing, WhatsApp Marketing & Freelancing

- Role of email & WhatsApp in digital marketing
- Building and segmenting subscriber audiences
- Writing effective email and WhatsApp campaigns
- Campaign setup, scheduling, and automation basics
- Performance tracking and optimisation
- WhatsApp broadcast and engagement workflows
- Introduction to freelancing platforms and profiles
- Portfolio building and client acquisition basics

Project
Email & WhatsApp campaign setup

Case Study
Lifecycle communication strategy analysis

Module 20

AI Agents & Marketing Automation Workflows

- Introduction to marketing automation concepts
- Understanding triggers, actions, and logic flows
- Designing multi-step automated workflows
- Connecting tools and platforms through automation
- Data handling, conditions, and branching logic
- Error handling, testing, and optimisation
- Building AI-assisted marketing systems
- Real-world automation use cases and templates

Project
AI-driven automation workflow

Case Study
Automation-led marketing system breakdown

A structured learning journey designed for modern, **future ready digital marketers**.

12

TOOLS
YOU'LL MASTER

You'll work with the same platforms modern marketers use to plan, execute, analyze, and automate campaigns. The focus is on when to use a tool, why it matters, and how it fits into a workflow.

ChatGPT · Gemini · perplexity · Grok · Google Analytics · copy.ai

ahrefs · Hootsuite · SEMRUSH · sproutsocial · HubSpot · n8n

Canva · Refersion · salesforce · Google Ads · OPTMYZR · Buffer

WordPress · Trello · MOZ · Meta · Zoho Social · metricool

quetext · SmallSEOTools · Scribbr · grammarly · turnitin · PlagScan

SEOptimer · Ubersuggest · yoast · woorank · RankMath · Screamingfrog

GTmetrix · PageSpeed Insights · Dupli Checker · ProWritingAid · SocialPilot · sproutsocial

and more...

These are the tools that power modern marketing systems.

13

3-Stage Career Readiness Framework

Our career support framework helps learners move from skill development to hiring readiness with clarity and confidence.

Professional Positioning

Stage 01

Get your profile market-ready

This stage focuses on helping learners present their skills clearly and professionally.
You'll work on building a strong resume, refining your LinkedIn presence, and shaping a portfolio that reflects your projects, tools, and learning outcomes.
The objective is to ensure recruiters can quickly understand what you know and what you can do.

Communication & Storytelling

Stage 02

Learn to explain your skills with confidence

Here, learners are guided on how to communicate their experience effectively during interviews.
The focus is on project explanation, HR interview preparation, understanding hiring expectations, and improving overall communication confidence.
This stage helps learners articulate their thinking, decisions, and problem-solving approach clearly.

Interview Readiness & Career Guidance

Stage 03

Prepare for real hiring scenarios

The final stage prepares learners for different interview formats and career discussions.
This includes technical interview preparation, case-study and problem-solving approaches, behavioural questions, and guidance on navigating hiring processes.
Learners gain clarity on how to approach opportunities with confidence and structure.

IDS **Impact**

5000+	8.9 LPA	900+
Learners Trained	Average CTC	Hiring Partners

14

Stand Out With An Industry-Recognised **CERTIFICATE**

Upon successful completion of the AI-Infused Digital Marketing Program, learners receive a Certificate of Completion from the Institute of Digital Studies.

The certificate can be showcased on professional platforms, resumes, and portfolios as proof of structured learning and applied knowledge.

15

Take The Next Step Towards

“Future Ready Digital Marketing Career”
